DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-28, drawn to cured tobacco leaf/ process of air-curing tobacco leaves, classified in class 131, subclass 300.
 - II. Claims 29-54, drawn to a cured tobacco leaf/method of reducing tobacco-specific nitrosamines/endotoxins from tobacco leaf, classified in class 131, subclass 300.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility from invention II, because invention I has separate use as a tobacco product (and method of making same) having been washed with an alkaline/bi-carbonate salt solution (as opposed to a tobacco product washed with a disinfectant/solvent wash solution), which is required by invention II . See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Mr. Peter Skiff on Monday, June 10th, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
